FULL PAPERS

Biosynthesis and Degradation

Anabolism versus catabolism of [5-^{3}H]uridine and its relationship to ribonucleic acid labelling in mouse liver after partial hepatectomy.
By T. Yngner, C. Engelbrecht, L. Lewan & J.-E. Annerfeldt 1

Computed resolution and relative specific radioactivities of radiolabelled proteins synthesized by isolated gastric mucosal cells.
By C. N. A. Trotman & J. R. Greenwell 159

Bioenergetics

The respiratory chain of *Hydrogenomonas* H16.
By M. C. Beatrice & J. B. Chappell 15

Effect of chronic ethanol administration on energy metabolism and phospholipase A_2 activity in rat liver.
By P. I. Spach, J. W. Parce & C. C. Cunningham 23

Artificially induced active transport of amino acid driven by the efflux of a sugar via a heterologous transport system in de-energized *Escherichia coli*.
By M. Bentaboulet, A. Robin & A. Kepes 103

Energy coupling to the transport of inorganic phosphate in *Escherichia coli* K12.
By H. Rosenberg, R. G. Gerdes & F. M. Harold 133

Transmembrane electrical potential and transmembrane pH gradient in the acidophile *Thiobacillus ferro-oxidans*.
By J. C. Cox, D. G. Nicholls & W. J. Ingledew 195

Subcellular Structures

Isolation of lysosomes from brain tissue. A separation method by means of alteration of mitochondrial and synaptosomal sedimentation properties.
By J. J. W. Lisman, J. de Haan & B. Overdijk 79

Membranes and bile formation. Composition of several mammalian biles and their membrane-damaging properties.
By R. Coleman, S. Iqbal, P. P. Godfrey & D. Billington 201

Cellular Interactions and Control Processes

The effects of barbiturates on the metabolism of phosphatidic acid and phosphatidylinositol in rat brain synaptosomes.
By J. C. Miller & I. Leung 9

Relationship between hormonal activation of phosphatidylinositol hydrolysis, fluid secretion and calcium flux in the blowfly salivary gland.
By J. N. Fain & M. J. Berridge 45

Inhibition of phosphatidylinositol synthesis and the inactivation of calcium entry after prolonged exposure of the blowfly salivary gland to 5-hydroxytryptamine.
By M. J. Berridge & J. N. Fain 59

Nuclear and cytosolic distribution of conjugated cholic acid and radiolabelled glycocholic acid in rat liver.
By R. C. Strange, G. J. Beckett & I. W. Percy-Robb 71

Glucose transport of *Escherichia coli* growing in glucose-limited continuous culture.
By I. S. Hunter & H. L. Kornberg 97

Suppression of the formation of polyamines and macromolecules by DL-α-difluoromethylornithine and methylglyoxal bis(guanylhydrazone) in phytohaemagglutinin-activated human lymphocytes.
By E. Hölttä, J. Jänne & T. Hovi 109

Mechanism of activation of glycogen phosphorylase by fructose in the liver. Stimulation of phosphorylase kinase related to the consumption of adenosine triphosphate.
By G. Van de Werve & H.-G. Hers 119

Effect of glucocorticoid administration on the rate of muscle protein breakdown *in vivo* in rats, as measured by urinary excretion of N^{τ}-methylhistidine.
By F. M. Tomas, H. N. Munro & V. R. Young 139

Interaction of mitochondrial malate dehydrogenase monomer with phospholipid vesicles.
By K. A. Webster, H. V. Patel, K. B. Freeman & D. Papahadjopoulos 147

Methane synthesis without the addition of adenosine triphosphate by cell membranes isolated from *Methanobacterium ruminantium*.
By F. D. Sauer, J. D. Erfle & S. Mahadevan 165

PAGE

Nucleosomes from normal and regenerating rat liver.
By M. G. Ord & L. A. Stocken 173

Polarization of chlorotetracycline fluorescence in pancreatic islet cells and its response to calcium ions and D-glucose.
By I.-B. Täljedal 187

Changes in the contents of adenine nucleotides and intermediates of glycolysis and citric acid cycle in flight muscle of the locust upon flight and their relationship to the control of the cycle.
By A. N. Rowan & E. A. Newsholme 209

Lysophosphatidylcholines can modulate the activity of the glucagon-stimulated adenylate cyclase from rat liver plasma membranes.
By M. D. Houslay & R. W. Palmer 217

PAGE

Development

The distribution of enzyme and isoenzyme activities between parenchymal and haematopoietic cells in the liver of the foetal guinea pig.
By A. Faulkner & C. T. Jones 89

Prolyl 3-hydroxylase and 4-hydroxylase activities in certain rat and chick-embryo tissues and age-related changes in their activities in the rat.
By K. Tryggvason, K. Majamaa & K. I. Kivirikko 127

Metabolism in Whole Organisms

Effects of food deprivation on ketonaemia, ketogenesis and hepatic intermediary metabolism in the non-lactating dairy cow.
By G. D. Baird, R. J. Heitzman, I. M. Reid, H. W. Symonds & M. A. Lomax 35

Fungal metabolism of biphenyl.
By R. H. Dodge, C. E. Cerniglia & D. T. Gibson 223

RAPID PAPERS

PAGE

Bioenergetics

Participation of quinone and cytochrome *b* in tetrathionate reductase respiratory chain of *Citrobacter freundii*.
By Č. Novotný & F. Kaprálek 237

Cellular Interactions and Control Processes

Ricin and modeccin do not inhibit the elongation factor 1-dependent binding of aminoacyl-tRNA to ribosomes.
By S. Sperti & L. Montanaro 233

Involvement of cytoskeletal structures in nerve-growth-factor-mediated induction of ornithine decarboxylase.
By J. Lakshmanan 245

PAGE

Adenosine, thyroid status and regulation of lipolysis.
By J. J. Ohisalo & J. E. Stouffer 249

Development

Ca^{2+}-stimulated ribonuclease. A new marker enzyme of differentiated rat mammary tissues.
By D. K. Liu, D. Kulick & G. H. Williams 241

L-Proline transport by newborn rat kidney brush-border membrane vesicles.
By D. R. Goldmann, K. S. Roth, T. W. Langfitt, Jr. & S. Segal 253

FULL PAPERS

PAGE

Biosynthesis and Degradation

Structure and metabolism of sulphated glycosaminoglycans in cultures of human fibroblasts. Structural characteristics of co-polymeric galactosaminoglycans in sequential extracts of fibroblasts during pulse–chase experiments.
By I. Sjöberg, I. Carlstedt, L. Cöster, A. Malmström & L.-Å. Fransson 257

Studies on the relationship between the degradative rates of proteins *in vivo* and their isoelectric points.
By J. F. Dice, E. J. Hess & A. L. Goldberg 305

Turnover of prolyl hydroxylase tetramers and the monomer-size protein in chick-embryo cartilaginous bone and lung *in vivo*.
By K. Majamaa, E.-R. Kuutti-Savolainen, L. Tuderman & K. I. Kivirikko 313

The effect of starvation on the rate of protein synthesis in rat liver and small intestine.
By M. A. McNurlan, A. M. Tomkins & P. J. Garlick 373

The metabolic conversion of very-low-density lipoprotein into low-density lipoprotein by the extrahepatic tissues of the rat.
By B. S. Suri, M. E. Targ & D. S. Robinson 455

Leucine degradation in cell-free extracts of skeletal muscle.
By R. Odessey & A. L. Goldberg 475

Bioenergetics

Purification and properties of the adenosine triphosphatase released from the liver mitochondrial membrane by chloroform.
By D. D. Tyler & P. R. Webb 289

Sodium ion-coupled uptake of taurocholate by intestinal brush-border membrane vesicles.
By R. C. Beesley & R. G. Faust 299

Electron-transport pathway of the NADH-dependent haem oxygenase system of rat liver microsomal fraction induced by cobalt chloride.
By Y. Hino & S. Minakami 323

Topological arrangement in microsomal membranes of hepatic haem oxygenase induced by cobalt chloride.
By Y. Hino, H. Asagami & S. Minakami 331

PAGE

Mixed anhydrides of nucleotides and mesitylenecarboxylic acid as new specific inhibitors of mitochondrial adenosine triphosphatase.
By I. A. Kozlov, M. V. Shalamberidze, I. Y. Novikova, N. I. Sokolova & Z. A. Shabarova 339

The microbiol metabolism of C_1 compounds. Oxidative phosphorylation in membrane preparations of *Pseudomonas* AM1.
By A. I. Netrusov & C. Anthony 353

The effects of lipid phase transitions on the interaction of mitochondrial NADH–ubiquinone oxidoreductase with ubiquinol–cytochrome *c* oxidoreductase.
By C. Heron, M. G. Gore & C. I. Ragan 415

Subcellular Structures

The permeability of rat liver lysosomes to sugars. Evidence for carrier-mediated facilitated diffusion.
By K. Docherty, G. V. Brenchley & C. N. Hales 361

Inhibition of the discharge of endocytosed protein from phagosomes into lysosomes in hepatoma cells exposed to dimerized ribonuclease A.
By J. Bartholeyns, J. Quintart & P. Baudhuin 433

Localization of oxidized nicotinamide–adenine dinucleotide glycohydrolase in the mouse liver nuclear envelope.
By P. Tamulevicius, C. Streffer, O. Roscic & E. Hubert 467

Cellular Interactions and Control Processes

S-(*N*-Dansylaminoethyl)-6-mercaptoguanosine as a fluorescent probe for the uridine transport system in human erythrocytes.
By E. Shohami & R. Koren 271

Detection, purification and characterization of a human cancer-associated galactosyltransferase acceptor.
By D. K. Podolsky & M. M. Weiser 279

Distinction between progestin- and glucocorticoid-binding sites in mammary glands. Apparent lack of cytoplasmic progesterone receptors in lactating mammary glands.
By G. Shyamala & W. A. McBlain 345

PAGE

Interaction between insulin-storage granules and F-actin *in vitro*.
By S. L. Howell & M. Tyhurst 367

Stimulation of glucose transport in rat adipocytes by insulin, adenosine, nicotinic acid and hydrogen peroxide. Role of adenosine 3′:5′-cyclic monophosphate.
By W. M. Taylor & M. L. Halperin 381

Polyamine replacement by magnesium ions in BHK-21/C13 cells.
By M. A. L. Melvin & H. M. Keir 391

Effects of collagen, ionophore A23187 and prostaglandin E_1 on the phosphorylation of specific proteins in blood platelets.
By R. J. Haslam, J. A. Lynham & J. E. B. Fox 397

PAGE

Induction of *N*-acetylglucosamine-catabolic pathway in spheroplasts of *Candida albicans*.
By B. Singh & A. Datta 427

The effect of colchicine on human blood platelets under conditions of short-term incubation.
By A. Ribbi-Jaffe & R. Apitz-Castro 449

Development

Developmental pattern of rat intestinal brush-border enzymic proteins along the villus–crypt axis.
By P. M. Simon, M. Kedinger, F. Raul, J. F. Grenier & K. Haffen 407

Demonstration of two functionally heterogeneous groups within the activities of UDP-glucuronosyltransferase towards a series of 4-alkyl-substituted phenols.
By G. J. Wishart & M. T. Campbell 443

RAPID PAPERS

PAGE

Biosynthesis and Degradation

Cycloheximide as a probe of fibrinogen synthesis.
By R. Procyk, T. M. Devlin & J. J. Ch'ih 501

Bioenergetics

The influence of thyroxine administered *in vivo* on the transmembrane protonic electrochemical potential difference in rat liver mitochondria.
By S. B. Shears & J. R. Bronk 505

Cellular Interactions and Control Processes

The influence of vasopressin and related peptides on glycogen phosphorylase activity and phosphatidylinositol metabolism in hepatocytes.
By C. J. Kirk, L. M. Rodrigues & D. A. Hems 493

Fatty acid stimulation of membrane phosphatidylinositol hydrolysis by brain phosphatidylinositol phosphodiesterase.
By R. F. Irvine, A. J. Letcher & R. M. C. Dawson 497

Effects of carbon tetrachloride on isolated rat hepatocytes. Inhibition of protein and lipoprotein secretion.
By E. Gravela, E. Albano, M. U. Dianzani, G. Poli & T. F. Slater 509

Contents of Volume 178, No. 3

FULL PAPERS

PAGE

Biosynthesis and Degradation

Formation of cobalt protoporphyrin in the liver of rats. A mechanism for the inhibition of liver haem biosynthesis by inorganic cobalt.
By P. Sinclair, A. H. Gibbs, J. F. Sinclair & F. De Matteis 529

The turnover of cytochrome *c* in different skeletal-muscle fibre types of the rat.
By R. L. Terjung 569

PAGE

The effect of oxygen partial pressure on protein synthesis and collagen hydroxylation by mature periodontal tissues maintained in organ cultures.
By E. H. K. Yen, J. Sodek & A. H. Melcher 605

Deoxyribonucleic acid synthesis in isolated nuclei from baby-hamster kidney cells (BHK-21/C13). Characterization of the system.
By J. F. Burke & C. K. Pearson 613

PAGE

Effect of drugs on deoxyribonucleic acid synthesis in isolated mammalian cell nuclei. Comparison with partially purified deoxyribonucleic acid polymerases.
By J. F. Burke, P. M. Duff & C. K. Pearson 621

Polyprenyl phosphate sugars synthesized during slime-polysaccharide production by membranes of the root-cap cells of maize (*Zea mays*).
By J. R. Green & D. H. Northcote 661

Pools and protein synthesis in mammalian cells.
By J. H. Robertson & D. N. Wheatley 699

Effect of hypophysectomy on the rates of protein synthesis and degradation in rat liver.
By R. D. Conde 725

Effect of metabolic conditions on protein turnover in yeast.
By S. López & J. M. Gancedo 769

Studies on the collagen glucosyltransferase activity present in platelets and plasma.
By S. Menashi & M. E. Grant 777

Bioenergetics

Interaction of cations with phosphate uptake by *Saccharomyces cerevisiae*. Effects of surface potential.
By G. M. Roomans & W. G. F. H. Borst-Pauwels 521

Calcium ion transport across plasma membranes isolated from rat kidney cortex.
By P. Gmaj, H. Murer & R. Kinne 549

Energy-dependence of calcium accumulation during sporulation of *Bacillus megaterium* KM.
By C. Hogarth & D. J. Ellar 627

Modulation of Ca^{2+} efflux from heart mitochondria.
By E. J. Harris 673

Subcellular Structures

The location of acid invertase activity and sucrose in the vacuoles of storage roots of beetroot (*Beta vulgaris*).
By R. A. Leigh, T. ap Rees, W. A. Fuller & J. Banfield 539

The distribution and chemical nature of radioactive folates in rat liver cells and rat liver mitochondria.
By R. J. Cook & J. A. Blair 651

Choline kinase and ethanolamine kinase activity in the cytosol of nerve endings from rat forebrain.
By S. Spanner & G. B. Ansell 753

PAGE

Analytical subcellular fractionation of alveolar macrophages from normal and BCG-vaccinated rabbits with particular reference to heterogeneity of hydrolase-containing granules.
By D. B. Lowrie, P. W. Andrew & T. J. Peters 761

Cellular Interactions and Control Processes

No strict coupling of vitamin K_1 (2-methyl-3-phytyl-1,4-naphthoquinone)-dependent carboxylation and vitamin K_1 epoxidation in detergent-solubilized microsomal fractions from rat liver.
By R. Wallin 513

Enhancement of rat brain tryptophan metabolism by chronic ethanol administration and possible involvement of decreased liver tryptophan pyrrolase activity.
By A. A.-B. Badawy, N. F. Punjani & M. Evans 575

Oestrogen receptor of calf mammary gland. Purification by use of sodium bromide and heparin–Sepharose.
By A. Rotondi & F. Auricchio 581

Isolation and metabolic characteristics of rat and chicken enterocytes.
By M. Watford, P. Lund & H. A. Krebs 589

Changes in Harderian gland activity in the female golden hamster during the oestrous cycle, pregnancy and lactation.
By A. P. Payne, J. McGadey, M. R. Moore & G. G. Thompson 597

Differential effect of clofibrate on inflammation-induced alterations in plasma proteins in the rat.
By M. C. Powanda, F. B. Abeles, K. A. Bostian, J. P. Fowler & E. C. Hauer 633

Regulation of mammalian protein synthesis *in vivo*. Stimulated transport of nuclear ribonucleoprotein complexes to the cytoplasm after cycloheximide treatment.
By J. J. Ch'ih, D. M. Duhl, L. S. Faulkner & T. M. Devlin 643

Evidence for a role of phosphatidylinositol turnover in stimulus–secretion coupling. Studies with rat peritoneal mast cells.
By S. Cockcroft & B. D. Gomperts 681

Selective cleavage of variant surface glycoproteins from *Trypanosoma brucei*.
By J. G. Johnson & G. A. M. Cross 689

DOES NOT CIRCULATE

PAGE

Characterization of prolactin binding by membrane preparations from rat liver.
By A. M. Silverstein & J. F. Richards 743

Rate of pinocytic capture of macromolecular substrates by rat yolk sac incubated in serum-free culture medium.
By G. E. Ibbotson & K. E. Williams 785

Development

Establishment of rat pancreatic endocrine cell lines by infection with Simian Virus 40.
By E. J. Niesor, C. B. Wollheim, D. H. Mintz, B. Blondel, A. E. Renold & R. Weil 559

PAGE

The early development of white adipose tissue. Effects of litter size on the lipoprotein lipase activity of four adipose-tissue depots, serum immunoreactive insulin and tissue cellularity during the first four weeks of life in the rat.
By A. Cryer & H. M. Jones 711

Metabolism in Whole Organisms

Glucose metabolism in perfused skeletal muscle. Demonstration of insulin resistance in the obese Zucker rat.
By F. W. Kemmer, M. Berger, L. Herberg, F. A. Gries, A. Wirdeier & K. Becker 733

RAPID PAPERS

Metabolism in Whole Organisms

PAGE

The identification of *p*-acetamidobenzoate as a folate degradation product in rat urine.
By M. J. Connor, A. E. Pheasant & J. A. Blair 795
